# INTRODUCTION

# The Purpose of the Estimates

The 2008-09 Estimates set out details of the operating and capital spending requirements of Ministries for the fiscal year commencing April 1, 2008. The Estimates constitute the Government's formal request to the Legislature for approval of the amounts involved. All expenditures from the Consolidated Revenue Fund must be authorized by an appropriation, either through the *Supply Act* or other legislation.

The proposed *Interim Appropriation Act, 2008* would authorize expenditures for the fiscal year commencing on April 1, 2008 up to specified maximum amounts. The expenditures would have to be applied in accordance with the votes and items set out in the Estimates and Supplementary Estimates for the fiscal year commencing on April 1, 2008 as tabled in the Assembly.

If enacted, the Interim Appropriation Act, 2008 would, subject to the approval of the Legislature, be repealed upon the enactment of the Supply Act for the fiscal year commencing on April 1, 2008.

The Estimates are required to be tabled no more than 12 sitting days after a Budget is presented. The Standing Committee on Estimates considers the Estimates of between 6 and 12 Ministries or offices. Once approved by the Legislature in the *Supply Act*, the Estimates become the legal spending authority for each Ministry.

The Votes and Items contained in the Estimates provide a framework for legislative control of public spending, which must be consistent with the purpose of each Vote and Item and cannot exceed Voted totals without legislative authority.

#### Format of the Estimates

The Expenditure Estimates of the Province of Ontario is comprised of two or more separate volumes/publications:

Volume 1: Volume 1 is the Main Estimates, which detail the spending plans of each Ministry for the fiscal year.

<u>Volume 2</u>: Volume 2 of the Estimates sets out the spending plans of the Board of Internal Economy offices, i.e., Office of the Assembly, Office of the Chief Election Officer, Ombudsman Ontario, and Office of the Auditor General.

<u>Supplementary Estimates</u>: Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

The Estimates for each Ministry or office are categorized as Operating Expense, Operating Assets, Capital Expense and Capital Assets. The spending plans within these categories are further classified as Votes, Items, Standard Accounts and Statutory Appropriations.

The Votes are major programs which Ministries are responsible for delivering. Each Vote is identified by a unique Vote number within the Estimates. Votes in turn are sub-divided into Items in order to distinguish between their different functions or services. This Vote/Item structure permits the Legislature to be more specific in appropriating funds to particular services. Items may be further sub-divided into sub-items, which can provide additional information on the Program/Function, if necessary.

In the Estimates, Statutory Appropriations are shown subsequent to the total amounts to be voted in the "Ministry Program Summary", "Vote Summary" and "Standard Account Classification" sections. Statutory Appropriations represent payments pursuant to a specific legislative authority and are not included in the *Supply Act*.

Within each Item and Statutory Appropriation, expenditures are detailed by standard account, i.e., Salaries and Wages, Employee benefits, Transportation and Communication, Services, Transfer payments, etc. (see Terms and Definitions Used).

Each Ministries' detailed section of the Estimates begins with a "Ministry Program Summary" table providing a high-level perspective of each Ministries' planned spending, listing all Votes/Programs showing total amounts to be voted, then adding Statutory Appropriations and consolidations and other adjustments. Following the "Ministry Program Summary" is a Vote Summary table for each Vote, listing each Item and Statutory Appropriation details within that Vote. Subsequent to the Vote-Item listing is a breakdown of each Vote-Item and Statutory Appropriation by standard account.

For comparative purposes, Estimates and Actual amounts for prior years are provided on "Ministry Program Summary" and Vote Summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred. Restatement to previously published data is shown in a separate table following each Ministry's section in the Estimates.

Consolidation adjustments are provided on each "Ministry Program Summary" page, where applicable. The adjustments reconcile the spending requests of Ministries as set out in the Estimates to the annual Budget, which is prepared on a consolidated basis. For Broader Public Sector organizations, consolidation adjustments reflect the difference between the relevant consolidated sector net expense and the expenses already included in the Estimates primarily in the form of transfer payments. For other government organizations, the adjustments equal these organizations' gross expenses less their provincial grants. A final total of Operating and Capital expenses plus Statutory Appropriations and consolidations and other adjustments completes the picture of total Ministry spending (excluding assets).

Following the Ministry sections are 12 summary tables listing operating, capital, and total operating and capital Estimates totals for all Ministries.

#### **Estimates Accounting Policies**

Since 2003-04, the Estimates have been prepared on the accrual basis of accounting.

As noted above, the Budget is prepared on a consolidated basis and the Estimates are adjusted to reconcile with the Budget totals for each Ministry. Consolidation combines the Items of Ministries with those of other government organizations, i.e., agencies, boards and commissions.

#### **Content and Presentation Changes**

As in the previous year, the cover of the Estimates is visually linked to the cover of the Budget to make more evident the connection between the two documents as elements of the same process in the continuum of financial reporting.

# **Terms and Definitions Used**

#### Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by the Special Warrant in 2007-08 fiscal year are deducted from the total amounts for each program to determine the amounts to be voted.

#### Cost Recovery Items

In cases where the anticipated recovery of costs of an Item is equal to or greater than the expenditures, the balance of the Item is shown at the nominal value of \$1,000.

#### Standard Accounts

Spending is forecast for the fiscal year 2008-09 under Standard Accounts at the Item level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

#### Salaries and Wages

Includes salaries and wages, overtime and other remuneration paid to regular, probationary, unclassified and other staff; temporary help costs; indemnities and allowances paid to Members of the Legislative Assembly; and special allowances paid to employees.

#### **Employee Benefits**

#### Transportation and Communication

#### Services

Includes information services, such as, advertising and communication services provided by professional agencies and advertising placed directly with the media; rental and purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

#### Supplies and Equipment

Includes provision for the purchase of all machinery and equipment including motor vehicles and computers, both new and used; and the purchase of all materials, supplies and utilities.

#### Transfer Payments

Assets are balance sheet accounts which require an appropriation in the Estimates. Asset categories include the following:

#### Deposits and Prepaid Expenses

Includes payments in advance of receiving related goods or services or in advance of being earned by transfer payment recipients, and which will be recorded in a non-asset standard account in a future fiscal year.

#### Advances and Recoverable Amounts

Includes payments to transfer payment recipients that will be repaid to the Province in a future fiscal year.

#### Loans and Investments

Includes payments to debtors under loan agreements and investments in the shares of Crown corporations or other entities.

# Tangible Capital Assets

Includes acquisition and construction of buildings and roads; and the acquisition of land.

#### Statutory Appropriations

Statutory Appropriations represent payments pursuant to a specific legislative authority and are not included in the Supply Act. Statutory Appropriations are included in the Estimates for information purposes and are not voted by the Legislature. Amounts required for Statutory Appropriations are shown, where applicable, as separate entries under the Standard Accounts Classifications details relating to each Item.

#### Sources of Additional Information:

#### Public Accounts

Comprised of 3 volumes containing the Consolidated Revenue Fund schedules, ministry statements showing actual expenses, financial statements of significant provincial crown corporations, boards and commissions, and detailed schedules of payments made from the Consolidated Revenue Fund by Ministries to vendors and transfer payment recipients. http://www.fin.gov.on.ca/english/budget/paccts/

#### Results-based Plan Briefing Books

Published annually by each Ministry, following the Ontario Budget and publication of the Estimates. The Plans highlight what each Ministry has done over the previous year, what is planned for the coming year, what targets have been set and how results will be measured. The Standing Committee on Estimates uses the Results-based Plan Briefing Books when they ask Ministries to defend their Estimates.

#### Ontario Budget

The Ontario Government presents a Budget each year, usually in the early spring. This document outlines expected expense and revenue for the upcoming fiscal year. <a href="http://ontariobudget.ca/english/">http://ontariobudget.ca/english/</a>

# STRONG AGRICULTURE, FOOD AND BIO-PRODUCT SECTORS AND STRONG RURAL COMMUNITIES - VOTE 108

Under this strategy, the ministry supports agriculture, food and bio-product sectors through a comprehensive approach. Components of this strategy that contribute to the framework for these sectors include: delivery of farm income stabilization and other assistance programs to the agriculture sector; working with agri-food partners in identifying needs and opportunities, and adopting new technologies; investing in agri-food research; investment attraction and investment retention efforts for the processing sector; promoting Ontario food and agricultural sales in export and domestic markets.

This strategy also assists rural Ontario in building strong, vital communities with diversified economies and healthy social and environmental climates by working collaboratively with rural communities, municipalities, businesses and organizations to undertake economic development initiatives.

Effective and accountable community-based services are directed to those most in need, in the fairest possible manner. Ontarians in need can access income and employment supports and the services of the Family Responsibility Office, which administers and enforces court orders for child and spousal support, so that they can move toward self-sufficiency. Adult community services support families and communities to help vulnerable adults, including services for people with developmental and physical disabilities and other special needs, women who have experienced domestic violence, and aboriginal people through the Aboriginal Healing and Wellness Strategy. The Accessibility Directorate of Ontario implements the requirements of the Accessibility for Ontarians with Disabilities Act to improve accessibility across Ontario and support community inclusion.

This program is responsible for maintaining a modern regulatory and legal environment that protects consumers, generates confidence and promotes economic growth. It deals with policy development for the ministry's consumer and business services programs and provides oversight to ensure effective governance, accountability, and relationship management with respect to the ministry's agencies, delegated administrative authorities, and other service delivery partners. The Licence Appeal Tribunal hears appeals concerning compensation claims and licensing activities under various ministries' statutes. The Alcohol and Gaming Commission of Ontario (AGCO) is charged with the administration and enforcement of the regulatory framework, which governs the liquor and gaming sectors in the province. The AGCO also sets and enforces standards in the gaming and beverage alcohol industries where the risks of illegal activity and potential social costs are significant.

### **PUBLIC HEALTH PROGRAM - VOTE 1406**

The goal of the Public Health Program is to protect and enhance health, prevent the onset of disease and premature death of Ontarians at all stages of life. This Program reflects the direction to focus health care resources on preventive health services. The Public Health Program sets standards and protocols, and provides funding to Ontario's boards of health. The Program includes the Office of the Chief Medical Officer of Health, who has independent powers and a responsibility to report annually on the state of public health to the Legislative Assembly of Ontario. In this regard, the mandate of Public Health includes the entire spectrum of infectious diseases, chronic diseases and injury prevention, healthy child development, family and community health, and environmental health - all with a focus on the underlying determinants of health and illness. The newly created Ontario Agency for Health Protection and Promotion will support public health at the provincial and local levels. In addition, the Program provides leadership in planning and responding to emergencies with a health component.

### PAY EQUITY COMMISSION PROGRAM - VOTE 1602

The mandate of the Pay Equity Office (PEO) is to administer and enforce Ontario's *Pay Equity Act*, which is intended to eliminate systemic gender discrimination in the compensation of work primarily performed by women. To carry out this mandate, the PEO provides education and advice to employers, employees and bargaining agents in the public and private sectors to achieve and maintain pay equity in their workplaces. The PEO also investigates complaints, monitors workplaces for compliance, attempts to effect settlements of issues between the parties and issues Orders for compliance where necessary.

The Pay Equity Hearings Tribunal, a quasi-judicial tri-partite administrative tribunal, is responsible for adjudicating disputes arising under the Pay Equity Act.

## LAND USE PLANNING AND BUILDING REGULATION PROGRAM - VOTE 1903

The objective of this program is to have well-planned and strong communities that enhance quality of life by ensuring well-managed growth that preserves greenspace, encourages brownfields redevelopment and provides for population and employment growth. Attaining this objective includes ensuring the safety of buildings through an effective building regulatory system. ### MINES AND MINERALS PROGRAM - VOTE 2203

This program helps build a strong, sustainable provincial mineral sector contributing to the prosperity of all of Ontario. Province-wide geological mapping, online 24-7 access to geoscience information, international marketing, and expert geological advisory services in field offices across the province create a competitive advantage for Ontario - helping a global exploration industry assess Ontario's mineral potential and attracting investment, exploration and mineral development to Ontario. This program's geoscience expertise also supports other government priorities such as groundwater mapping as part of drinking water protection efforts and identifying new industrial and energy development opportunities.

This program area also administers the Ontario *Mining Act* to ensure sustainable and responsible development of Ontario's mineral resources. This involves equitable public access to Crown mineral rights, fair and efficient management of Ontario's mining lands, and ensuring safe, environmentally sound mineral development and rehabilitation of mining lands.

The program area has responsibility for developing new, collaborative Aboriginal-mineral development engagement and consultation processes and work with communities to build relationships and foster economic and mineral development.

#### **TOURISM CAPITAL PROGRAM - VOTE 3804**

The Tourism Capital Program preserves and enhances Ontario's investment in tourism infrastructure. The Ministry manages the infrastructure development commitments of the province's \$300 million, five-year capital infrastructure initiative - the Sports, Culture and Tourism Partnership program. Launched in 2001, the Sports, Culture and Tourism Partnership program has been extended to 2009. In addition, the ministry is responsible for rehabilitating provincially owned and operated tourism assets which serve as economic catalysts. The funding to the Ministry's agencies, attractions and convention centres allows them to undertake repairs and rehabilitation of existing infrastructure, including such things as renovations, repairs, equipment replacement, and statutory/regulatory compliance (e.g. building code changes), to help them meet health and safety standards, maintain visitor appeal, and remain competitive.

#### POLICY AND PLANNING - VOTE 2702

The Policy and Planning Program is responsible for identifying the long-term, strategic interests of the province with respect to Ontario's transportation systems; and for developing and implementing policies, plans, programs and investments necessary to achieve that interest.

The primary focus of the program is to plan and promote a safe, efficient and sustainable transportation system. The program undertakes long-range transportation planning to ensure that all of the elements of the province's transportation system (air, rail, roads, marine and transit) work together effectively.

The program is also responsible for regulating the areas of Ontario's transportation system that are run by the province, including the management of GO Transit and managing the province's relationship with Metrolinx (formerly Greater Toronto Transportation Authority).

Additionally, the Policy and Planning Program represents Ontario's interests in the regulation and development of transportation in consultation with key federal and municipal partners and stakeholders in the air, rail and marine sectors, municipal transit and the municipal road system.

#### ROAD USER SAFETY PROGRAM - VOTE 2703

The Road User Safety Program develops ministry strategies to improve road safety and mobility through education, enforcement and regulation of safe driving behaviour, promotion of vehicle and motor carrier safety and customer service. The program works with many partners including police, community groups, safety organizations and the private sector to reduce fatalities and injuries on our roads.

The key responsibilities of the program are to: set safety standards and develop policies, programs and regulations for road users, carriers and vehicles; inspect, monitor and enforce compliance with those standards; manage and deliver commercial vehicle International Registration Plan; oversee the delivery of driver and vehicle licensing and registration by service delivery partners including ServiceOntario; manage contracts and ongoing relationships with service providers; and work with partners to educate road users about safe driving behaviour and road user safety policies, laws and programs. Developments in other jurisdictions and traffic safety research are monitored so that road safety initiatives are effective in maintaining Ontario's leading position as one of the safest jurisdictions in North America.

The program leads and actively participates with other jurisdictions in Canada and the U.S. in developing and promoting road safety programs and best practices. The program also sets customer service standards and monitors service delivery, including the electronic delivery of government products and services. It also facilitates the delivery of programs for other ministries, for example Drive Clean (Ministry of the Environment) and Family Support Payments (Ministry of Community and Social Services).

The Ministry of Transportation collects information from individuals under the authority of the *Highway Traffic Act*. The ministry maintains stewardship of this information and protects individuals' privacy in keeping with the *Freedom of Information and Protection of Privacy Act*.

#### PROVINCIAL HIGHWAYS MANAGEMENT PROGRAM - VOTE 2704

This program oversees the construction, maintenance and operation of the provincial highway network and invests strategically in highway infrastructure.

The program manages activities to deliver a provincial highway network that is safe, provides mobility for people and goods, and promotes economic, environmental and social sustainability.

Investment strategies preserve existing highway infrastructure through the application of asset management principles, improve trade corridors leading to key international border crossings - including the Windsor Gateway, and integrate highways with public transportation.

Activities include environmental assessments, planning, engineering, property acquisition, rehabilitation, new construction, contract oversight, routine maintenance and snow and ice control for all provincial highways and bridges.

The program also develops operational policies and guidelines and sets highway and bridge maintenance, engineering and construction standards. In addition to the highway network, the program is responsible for remote airports in northern Ontario and ferry services in locations across Ontario.

#### INTRODUCTION

The 2008-09 Estimates set out details of the Operating and Capital spending requirements of Ministries and Legislative Offices for the year commencing April 1, 2008 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the *Supply Act*, the Estimates become the legal spending authority for each Ministry/Office.

The *Interim Appropriation Act, 2008* authorizes expenditures for the fiscal year commencing on April 1, 2008 up to specified maximum amounts. The expenditures are to be applied in accordance with the Votes and Items set out in the Estimates and Supplementary Estimates for the fiscal year commencing on April 1, 2008 as tabled in the Assembly. The *Interim Appropriation Act, 2008* will, subject to the approval of the Legislature, be repealed upon the enactment of the *Supply Act* for the fiscal year commencing on April 1, 2008.

The services or programs which Ministries and Offices are responsible for delivering are each identified by a unique Vote number within the Estimates. Votes in turn are sub-divided into Items in order to distinguish between their different functions. This Vote/Item structure permits the Legislature to be more specific in appropriating funds to particular services. Within each Item, expenditures are shown by Standard Account, i.e. Salaries and wages, Employee benefits, Transportation and communication, Services, Transfer payments etc. (see explanatory notes on page vii).

For comparative purposes, Estimates and Actual amounts for prior years are provided on Ministry Summary and Vote Summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

Estimates for all Legislative Offices are presented on the modified cash basis of accounting.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

#### **EXPLANATORY NOTES**

# OFFICE OF THE AUDITOR GENERAL

The Auditor General, who is an Officer of the Assembly, conducts independent audits of government programs, the financial statements of the Province and numerous agencies of the Crown, broader public-sector organizations, and reviews under the authority of the *Auditor General Act* and various other statutes and authorities. The results of these audits and reviews provide assurance, objective information and advice to the Legislative Assembly. In doing so, the Office of the Auditor General assists the Assembly in holding the government, its administrators, and grant recipients accountable for their stewardship of public funds and for the achievement of value-for-money in the delivery of services to the public.

Additionally, under the *Government Advertising Act, 2004*, the Auditor General is required to review specified types of advertising and certain printed matter proposed by government offices to determine whether they meet the standards required by that Act.

Under both Acts, the Auditor General reports the results of the work conducted each year directly to the Legislative Assembly.
